

Dromex

HI VIZ SHIRTS

Description

Dromex® 100% cotton high visibility 2 tone long sleeve and short sleeve shirt with a vented yoke is a relaxed fit range that consists of natural fibres providing the user with comfort and breathability especially in warmer environments.

These Dromex® shirt styles are available in 2 colours, Orange and Navy Blue or Yellow and Navy Blue and are ideal for use with Dromex® J54 Pants or Denims. The shirt construction features the following:

Long sleeve shirt:

- Collar with hanger loop.
- Button closure shirt.
- A back yoke which is vented with a mesh and bar tacked between the openings.
- High visibility reflective tape around the lower chest, upper waist, back and arms.
- The sleeves are pleated in the front whilst the cuff is open with a navy plastic adjustable button closure.
- 2 Breast pockets with a mitred flap, button and open pen hole with a Dromex® sidewinder (left pocket only).
- Seams are double needle top stitched and stress points are re-enforced with bar tacks for added durability.

Short sleeve shirt:

- With hanger loop.
- Button closure shirt.
- A back yoke which is vented with a mesh and bar tacked between the openings.
- High visibility reflective tape around the lower chest, upper waist, back and arms.
- 2 Breast pockets with a mitred flap, button and open pen hole with a Dromex® sidewinder (left pocket only).
- Seams are double needle top stitched and stress points are re-enforced with bar tacks for added durability.

These garments are commonly used in the following industries:

- Corporate wear
- Promotional wear
- General work environments
- Warehouses

Special Instructions

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer.

The manufacturer has examined under the system for ensuring quality of production by means of monitoring and inspection.

These shirts are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment.

The information contained herein is intended to assist the wearer in the selection of personal protective equipment.

Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the garment suitability for the intended use.

Cleaning & Maintenance

- The following suggestions will help keep your garment neat and safe:
 - Cotton garments can be cleaned by home cleaning or commercial laundering provided all the recommended conditions and settings are adhered to.
 - Should home procedures not remove contaminants, then dry cleaning is recommended.
 - Our recommended cleaning for these garments is as follows:
 - Wash separately with like colours.
 - Pre-treat greasy stains and wash the shirts in warm water with a light cleaning solvent.
 - Do not use Hypochlorite bleach or detergents containing Hypochlorite bleach.
 - Chlorine bleach may cause fading and reduce fabric strength.
 - Do not overload home laundry equipment.
 - Shirts can be dry cleaned
 - Thoroughly rinse the shirt.
 - Do not hang in direct sun.
 - Sunlight can cause fading and reduce fabric strength.
 - Iron the garment on low heat.
 - When using commercial laundry aids, be sure to read and carefully follow the manufacturer's instructions.

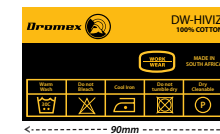

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Workwear should be disposed of considering the hazardous substance they were used for as well as the material they are made up of. Please consider recycling.
