

Dromex

DENIM JEANS

Description

Dromex® 100% cotton industrial denim pants is designed to protect the user from abrasion when working in environments exposed to mechanical hazards.

This attire features the following:

- Core-spun thread that is double stitched for durability on the inlegs, pocket opening, zip front, back yoke and the back rise.
- A concealed brass zip and button closure at waist.
- Swing pockets with brass rivet and stud.
- A high visibility Dromex® Arc sidewinder label and leather label.
- Double needled top stitching.
- Hem allowance of 1.5cm.
- The cotton natural fibre construction makes this garment comfortable and breathable.

This garment is suitable for use in general work environments such as warehouses, construction, corporate and promotional work.

Special Instructions

Although the manufacturer has examined these garments under the system for ensuring quality of production by means of monitoring and inspection, we recommend that all garments should be thoroughly inspected before use to ensure no damage is present.

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The garments and information contained herein are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. Actual conditions of use cannot be directly simulated in a test environment, therefore it is the responsibility of the user and not the manufacturer or supplier to determine the suitability for intended use.

Cleaning & Maintenance

The following suggestions will help keep your garment neat and safe. Denim garments can be cleaned by home cleaning or commercial laundering provided all the recommended conditions and settings are adhered to. Should home procedures not remove contaminants, then dry cleaning is recommended.

Our recommended cleaning for these garments are as follows:

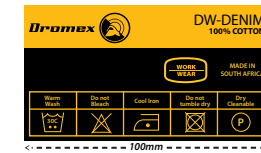

- Pre-treat greasy stains and wash the garment in warm water with a light cleaning solvent.
- Do not use Hypochlorite bleach or detergents containing Hypochlorite bleach.
- Chlorine bleach may cause fading and reduce fabric strength.
- Do not overload home laundry equipment.
- Do not tumble dry garments.
- Do not hang in direct sun.
- Sunlight can cause fading and reduce fabric strength.
- When using commercial laundry aids, be sure to read and carefully follow the manufacturer's instructions.

Disposal

All industrial waste should be disposed of correctly according to local regulations and good disposal practice. Work wear should be disposed of considering the hazardous substance they were used for as well as the material they are made up of. Please consider recycling.
